<p>We are a recently formed small group of cyclists who enjoy cycling on the country roads. Some members have normal bikes and some electric, which works well. We are mostly good weather cyclists so sometimes change a date to suit the weather. We are usually out for a couple of hours and try to fit in a coffee stop either en route or at the end of the ride.</p> <p>New members are welcome. If you are interested in joining us for a gentle ride, please contact me.</p>
