FRENCH IMPROVERS

We have a lively and dedicated full complement of members and after a bit of a break in the Summer have come back to the task of improving our French with renewed vigour.

As well as talking, we are enjoying reading our third Maigret book, Maigret et le Clochard. We also do role playing and various other activities designed to enrich our vocabulary and ability to converse. Everyone also does a bit of homework, at least most of the time! We also come together from time to time in a group member's house to have something to eat and watch a French film. Of course we are looking forward to our Christmas lunch together. Two of our members have invited us to their house before Christmas where we are going to endeavour to play charades in French!
