<p>New Age Kurling is a form of the original curling sport but adapted so it can be played indoors on any smooth flat surface such as a sports hall etc.</p> <p>We play on 2 lanes, and the idea is to get your “stone” on to the vinyl target at the end of the lane. Stones are slid up the lane or pushed with a “pusher” if you are unable to bend down. We have many variations of scoring and play either in pairs or singles depending on how many are in attendance.</p> <p>Our group is really friendly and much of the time in between games and during the tea break is spent sitting and chatting. We organise meals out occasionally and many friendships have been formed over the “stones”.</p> <p>The group is quite full but if you are interested in joining please do contact the group leader for a chat.</p>
