PHILOSOPHY DISCUSSION GROUP

The Philosophy Discussion Group continues to thrive. Two new members joined us last year. We have no vacancies at present, but we do have a very short waiting list. Our discussion topics remain varied and are selected and introduced by group members. As always, we try to relate the philosophical questions of previous generations to both contemporary times, and our own time. In the last 12 months we have considered - Isaiah Berlin 'On Liberty'; Nietzsche and the 'Will to Power'; Free Will and Determinism; Populism and Democracy (after the US presidential election); Stoicism in the Post-Hellenic and Roman eras; East versus west - Early Indian, Chinese and Islamic Philosophy; and will be considering Truth and 'Post-Truth' in April. If this appeals then contact me to add your name to our waiting list.
