<p>This is a friendly group that meets in each other's houses for a one-hour session. Music is provided and also advice about ukuleles. We have relaxed, easy lessons to inspire confidence in beginners. Reading music is not necessary and singing ability does not matter. The more we practice the more confident in each other we become – and thus we get better at it!</p> <p>There are spaces for new members so please contact the Stuart if you are interested in joining and developing this new skill</p>

<p>The advanced Ukulele group concentrates on finger picking and more complex tunes, usually of Hawaiian origin. Everybody in the group has been playing for some time now. We need plenty of room for instruments and stands etc which is why the group tends to be quite small, and at the moment is full. We do not do gigs as we meet for the pleasure of it all!</p> <p>If you are interested in joining and have the necessary skills please contact the group leader to discuss.</p>
